### PERU—SECTION 2

#### A UNIQUE SET—PHILIP II

1707 3993, 3993A, 3993B, 3993C, 3993D and 3994. Only the first, eight reales, and the last, quarter real, are listed in GUTTAGS. The others are 4 reales, 2 reales, one real and a half real resp. While a full series of these coins was known to exist, Mr. Guttag did not own it at the time the Catalog was published. The eight, two and half reales were in the Quadras Collection. The four reales and one real were illustrated by Heiss. However, the one-quarter real or cuartillo (#3994) in the Guttag Collection is the only specimen known in this denomination. Obviously, this fact makes this complete set unique. The coins were struck at the Lima mint, the mint mark P (for Potosi) is attributed to the fact that Rincon (whose letter R appears on the coins, also) was assayer for Potosi. Until very recently, this set was on exhibition at the American Numismatic Society in N. Y. The coins are in fine condition, the 8, 4, and 2 real pieces being exceptionally so. Bid for the Complete Set as One Lot.
